Master IT hardware and software installation, configuration, repair, maintenance, and troubleshooting and fully prepare for the CompTIA® A+ Core 1 (220-1001) and Core 2 (220-1002) exams. This is your all-in-one, real-world, full-color guide to connecting, managing, and troubleshooting modern devices and systems in authentic IT scenarios. Its thorough instruction built on the CompTIA A+ Core 1 (220-1001) and Core 2 (220-1002) exam objectives includes coverage of Windows 10, Mac, Linux, Chrome OS, Android, iOS, cloud-based software, mobile and IoT devices, security, Active Directory, scripting, and other modern techniques and best practices for IT management. Award-winning instructor Cheryl Schmidt also addresses widely-used legacy technologies—making this the definitive resource for mastering the tools and technologies you'll encounter in real IT and business environments. Schmidt's emphasis on both technical and soft skills will help you rapidly become a well-qualified, professional, and customer-friendly technician. LEARN MORE QUICKLY AND THOROUGHLY WITH THESE STUDY AND REVIEW TOOLS: Learning Objectives and chapter opening lists of CompTIA A+ Certification Exam Objectives make sure you know exactly what you'll be learning, and you cover all you need to know Hundreds of photos, figures, and tables present information in a visually compelling full-color design Practical Tech Tips provide real-world IT tech support knowledge Soft Skills best-practice advice and team-building activities in every chapter cover key tools and skills for becoming a professional, customer-friendly technician Review Questions—including true/false, multiple choice, matching, fill-in-the-blank, and open-ended questions—carefully assess your knowledge of each learning objective Thought-provoking activities help students apply and reinforce chapter content, and allow instructors to “flip” the classroom if they choose Key Terms identify exam words and phrases associated with each topic Detailed Glossary clearly defines every key term Dozens of Critical Thinking Activities take you beyond the facts to deeper understanding Chapter Summaries recap key concepts for more efficient studying Certification Exam Tips provide insight into the certification exam and preparation process

Evidence-Based Imaging

A saga of the US Navy from the Barbary War of 1803 through the War of 1812. In 1803, a young man joins the crew of what will become the most famous frigate of the early US Navy - USS Constitution. From the sands of North Africa during the first Barbary War, across the aquamarine waters of the Caribbean, we follow the exploits of a young American seaman, Alain de Noux. At the outbreak of the War of 1812, Captain de Noux takes the ship he personally designed to sea to fight the mightiest navy in the world - Britain's Royal Navy. USS Relentless is the newest, largest, fastest frigate in the world, her hull coated in resin that allows her to fly across the waves, her radically-designed sails and special chute-sail that acts as a spinnaker pulls the big frigate along at nearly eighteen knots. Armed with weapons far in advance of its time - steel cannons with rifled barrels that propel shells farther than any cannon on any ship, along with special binoculars that aid lookouts to see at night, USS Relentless is a most lethal ship. The ship also carries high caliber shells that explode on contact and special carcass rounds filled with white phosphorous, consuming any ship it strikes in flames. USS Relentless challenges all ships, including the huge British ships-of-the-line, contemporary battleships. Terrorizing the Atlantic for months, Relentless is sent on a more important mission, a mission with no return ticket. She will fly the American flag into combat for the first time across the Indian Ocean, attacking the fat merchant ships of Britain's lucrative East India Company. America does not have the means to invade Britain, but USS Relentless can disrupt her most profitable trade routes. Alain finds success in war and finally meets the woman that will change his world, if only for a short time. In his heart, he knows he will die a young man. It is a race. How many ships can the great raider destroy or capture before the Royal Navy's fleet can destroy her? Along the shoals of the Laccadive Islands, In what the world will call The Battle of the Arabian Sea, USS Relentless must fight an entire fleet in order for Alain to get back to the love of his life.

YOU CAN'T MAKE THIS STUFF UP! Here is a hilarious collection that catches real-life knuckleheads in outrageous acts of brazen stupidity, giving new meaning to that famous four-letter word: "DUH"! * The Oregon resident who was waxing his 1984 Pontiac--and somehow managed to shove the antenna up his nose . . . GRANDMOTHER OF EIGHT MAKES HOLE IN ONE * The Atlanta Braves pitcher who was treated for five-inch-long welts after he tried to iron his polo shirt while wearing it . . . MINERS REFUSE TO WORK AFTER DEATH * The inmate at a Chesapeake Correctional Facility who filed a five million dollar lawsuit against himself . . . DRUNK GETS NINE MONTHS IN VIOLIN CASE * The woman who couldn't stand the discomfort of having a callus on her right foot, so she blew off her big toe with a shotgun . . . Radio personality John "Kato" Machay's lively compilation of news stories, headlines, and courtroom gaffes proves hands down that truth is dumber than fiction! REMEMBER: To err may be human, but to laugh out loud is divine.

How does a suburban pizza joint end up profiled on national magazine covers and network TV news? (Hint: The secret is not in the sauce.) When Nick Sarillo decided to open a family-friendly pizza restaurant in the suburbs of Chicago, people thought he was nuts. Having worked as a carpenter for much of his adult life, he lacked any formal experience in restaurants or in managing a small business. Everyone told him no one else would ever care about his place the way he did. They warned he'd have to work 20-hour-days and monitor every employee just to stay in business. But Sarillo saw things differently, and set out to run his business in a radically different way. Today Nick's Pizza & Pub is one of the top ten busiest independent pizza restaurants in the country, with two locations that gross about six times the revenue of the typical pizza restaurant. And in an industry where most employees leave within less than a year, Nick's annual turnover rate is less than 20 percent. How did he do it? The secret lies in Nick's purpose-driven culture, in which every employee—from the waiters to the chefs to the managers—is equipped with the tools necessary to do their jobs while also advancing the company's overall mission. The result is higher sales, a dedicated team, and a big little business that is beloved by the entire community. In *A Slice of the Pie* Sarillo tells the story of how he built his extraordinary culture and shows how anyone can follow his methods. For instance, Nick's managers engage the staff by tracking and

rewarding unusual metrics, such as how many guests request a particular server or the average check amount of each carryout host. Likewise, team members of all ages and levels of experience are encouraged to express themselves, acquire new skills, and suggest ideas to help the business grow. A Slice of the Pie will help transform even the smallest, simplest, and most ordinary business into a successful, high-performance organization.

F & S Index United States Annual

Consumer Reports Digital Buying Guide 2004

Evidence-Based Imaging is a user-friendly guide to the evidence-based science and merit defining the appropriate use of medical imaging in both adult and pediatric patients. Chapters are divided into major areas of medical imaging and cover the most prevalent diseases in developed countries, including the four major causes of mortality and morbidity: injury, coronary artery disease, cancer, and cerebrovascular disease. This book gives the reader a clinically-relevant overview of evidence-based imaging, with topics including epidemiology, patient selection, imaging strategies, test performance, cost-effectiveness, radiation safety and applicability. Each chapter is framed around important and provocative clinical questions relevant to the daily physician's practice. Key points and summarized answers are highlighted so the busy clinician can quickly understand the most important evidence-based imaging data. A wealth of illustrations and summary tables reinforces the key evidence. This revised, softcover edition adds ten new chapters to the material from the original, hardcover edition, covering radiation risk in medical imaging, the economic and regulatory impact of evidence-based imaging in the new healthcare reform environment in the United States, and new topics on common disorders. By offering a clear understanding of the science behind the evidence, Evidence-Based Imaging fills a void for radiologists, family practitioners, pediatricians, surgeons, residents, and others with an interest in medical imaging and a desire to implement an evidence-based approach to optimize quality in patient care.

The two-volume set (LNCS 6728 and 6729) constitutes the refereed proceedings of the International Conference on Swarm Intelligence, ICSI 2011, held in Chongqing, China, in June 2011. The 143 revised full papers presented were carefully reviewed and selected from 298 submissions. The papers are organized in topical sections on theoretical analysis of swarm intelligence algorithms, particle swarm optimization, applications of pso algorithms, ant colony optimization algorithms, bee colony algorithms, novel swarm-based optimization algorithms, artificial immune system, differential evolution, neural networks, genetic algorithms, evolutionary computation, fuzzy methods, and hybrid algorithms - for part I. Topics addressed in part II are such as multi-objective optimization algorithms, multi-robot, swarm-robot, and multi-agent systems, data mining methods, machine learning methods, feature selection algorithms, pattern recognition methods, intelligent control, other optimization algorithms and applications, data fusion and

swarm intelligence, as well as fish school search - foundations and applications.

Daily Report

Show biz memoir at its name-dropping, bridge-burning, profane best: the music industry's most outspoken, outrageous, and phenomenally successful executive delivers a rollicking memoir of pop music's heyday. During the 1970s and '80s the music business was dominated by a few major labels and artists such as Michael Jackson, Bruce Springsteen, the Rolling Stones, Bob Dylan, Billy Joel, Paul Simon, Barbra Streisand and James Taylor. They were all under contract to CBS Records, making it the most successful label of the era. And, as the company's president, Walter Yetnikoff was the ruling monarch. He was also the most flamboyant, volatile and controversial personality to emerge from an industry and era defined by sex, drugs and debauchery. Having risen from working-class Brooklyn and the legal department of CBS, Yetnikoff, who freely admitted to being tone deaf, was an unlikely label head. But he had an uncanny knack for fostering talent and intimidating rivals with his appalling behavior—usually fueled by an explosive combination of cocaine and alcohol. His tantrums, appetite for mind-altering substances and sexual exploits were legendary. In Japan to meet the Sony executives who acquired CBS during his tenure, Walter was assigned a minder who confined him to a hotel room. True to form, Walter raided the minibar, got blasted and, seeing no other means of escape, opened a hotel window and vented his rage by literally howling at the moon. In *Howling at the Moon*, Yetnikoff traces his journey as he climbed the corporate mountain, danced on its summit and crashed and burned. We see how Walter became the father-confessor to Michael Jackson as the King of Pop reconstructed his face and agonized over his image while constructing *Thriller* (and how, after it won seven Grammys, Jackson made the preposterous demand that Walter take producer Quincy Jones's name off the album); we see Walter, in maniacal pursuit of a contract, chase the Rolling Stones around the world and nearly come to blows with Mick Jagger in the process; we get the tale of how Walter and Marvin Gaye—fresh from the success of "Sexual Healing"—share the same woman, and of how Walter bonds with Bob Dylan because of their mutual Jewishness. At the same time we witness Yetnikoff's clashes with Barry Diller, David Geffen, Tommy Mottola, Allen Grubman and a host of others. Seemingly, the more Yetnikoff feeds his cravings for power, sex, liquor and cocaine, the more profitable CBS becomes—from \$485 million to well over \$2 billion—until he finally succumbs, ironically, not to substances, but to a corporate coup. Reflecting on the sinister cycle that left his career in tatters and CBS flush with cash, Yetnikoff emerges with a hunger for redemption and a new reverence for his working-class Brooklyn roots. Ruthlessly candid, uproariously hilarious and compulsively readable, *Howling at the Moon* is a blistering *You'll Never Eat Lunch in this Town Again* of the music industry.
