## The Brand Who Cried Wolf

Since its introduction in 1998, the water-cooled Porsche 911 has earned a reputation as one of the world's greatest sports cars - equal to, if not better than, the legendary air-cooled 911 it replaced. The 911 is a true driver's car, and it offers its greatest driving rewards when properly maintained, tuned, and modified. One of the principal drawbacks to owning a Porsche is the relatively high cost of maintaining it. You can literally save thousands of dollars in mechanic's costs simply by performing some of the work yourself. With 101 Projects for Your Porsche 911 996 and 997 1998-2008, written by renowned Porsche author Wayne Dempsey, you'll be able to get into the garage and work on your 911 with confidence. Created with the weekend mechanic in mind, this highly illustrated Motorbooks Workshop title offers 101 step-by-step projects designed to help you maintain, modify, and improve your late-model 911. Focusing on the water-cooled 996 and 997 models, this book presents all the necessary knowledge, associated costs, and pitfalls to avoid when performing an expansive array of projects. And besides the savings, when you personally complete a job on your Porsche, you get the added satisfaction of having done it yourself.

When a family brings a new baby home, there are many changes. Older siblings may find it hard to understand the needs of the new baby, as well as the demands placed on mom and dad. Based on the attachment-parenting theories of the foremost authorities on parenting and childcare, William Sears, M.D., and Martha Sears, R.N., this book clearly explains baby's needs. The text emphasizes how siblings can be helpers to both baby and parents, while forging their own relationships with "their baby," and outlines the positive aspects of being an older girl or boy. Here is a warm, insightful book that will help the whole family joyously and lovingly welcome the newest member into their lives.
