What if the smartest people in the world understand something that the rest of us don't? (They do.) What if they know that in order to achieve success, they will sometimes have to do things that others may initially perceive as stupid? The fact of the matter is that the smartest people in the world don't run from stupid, they lean into it (in a smart way). In *The Power of Starting Something Stupid*, Richie Norton redefines stupid as we know it, demonstrating that life-changing ideas are often tragically mislabeled stupid. What if the key to success, creativity, and fulfillment in your life lies in the potential of those stupid ideas? This deeply inspiring book will teach you: ÿ How to crush fear, make dreams happen, and live without regret. ÿ How to overcome obstacles such as lack of time, lack of education, or lack of money. ÿ The 5 actions of the New Smart to achieve authentic success. No more excuses. Learn how to start something stupid—the smartest thing you can do. Drawing on years of research, including hundreds of face-to-face interviews and some of the world's greatest success stories past and present, Richie shows you how stupid is the New Smart—the common denominator for success, creativity, and innovation in business and life.

Stupid Cupids

Former rivals Quinn Bradford and Elise McKinney are not friends, at least not anymore. As teens, all they cared about was psyching each other out before concerts. But when Quinn—now the keyboardist for Shaken Dirty, the hottest rock

band on the scene—returns to his hometown and hears about the car accident that shattered Elise's career, he's determined to make things right. Elise wants nothing to do with an arrogant rock star, despite how bad she so clearly wants him, so Quinn kidnaps the stubborn little piano player and whisks her back to his mansion. A little seduction might be just the thing to keep Elise under his care and in his bed. But amid pranks both childish and very adult, their past comes rearing back to haunt them. And it might be more than either of them can forget. His rival's in his bed, and this rocker is ready to play. The American Clock

Professor Litman's work stands out as well-researched, doctrinally solid, and always piercingly well-written. -JANE GINSBURG, Morton L. Janklow Professor of Literary and Artistic Property, Columbia University
Litman's work is distinctive in several respects: in her informed historical perspective on copyright law and its legislative policy; her remarkable ability to translate complicated copyright concepts and their implications into plain English; her willingness to study, understand, and take seriously what ordinary people think copyright law means; and her creativity in formulating alternatives to the copyright quagmire. -PAMELA SAMUELSON, Professor of Law and Information Management; Director of the Berkeley Center for Law & Technology, University of California, Berkeley
In 1998, copyright lobbyists succeeded in persuading Congress to enact laws greatly expanding copyright owners' control over individuals' private uses of their works. The efforts to enforce these new rights have resulted in highly publicized legal battles between established media and new upstarts. In this enlightening and well-argued book, law professor Jessica Litman questions whether copyright laws crafted by lawyers and their lobbyists really make sense for the vast majority of us. Should every interaction between ordinary consumers and copyright-protected works be restricted by law? Is it practical to enforce such laws, or expect consumers to obey them? What are the effects of such laws on the exchange of information in a free society? Litman's critique exposes the 1998 copyright law as

an incoherent patchwork. She argues for reforms that reflect common sense and the way people actually behave in their daily digital interactions. This paperback edition includes an afterword that comments on recent developments, such as the end of the Napster story, the rise of peer-to-peer file sharing, the escalation of a full-fledged copyright war, the filing of lawsuits against thousands of individuals, and the June 2005 Supreme Court decision in the Grokster case. Jessica Litman (Ann Arbor, MI) is professor of law at Wayne State University and a widely recognized expert on copyright law.

3 Harlan Coben Novels: Promise Me, No Second Chance, Just One Look

This is the first biography of Ralph Peer, the adventurous—even revolutionary—A&R man and music publisher who saw the universal power locked in regional roots music and tapped it, changing the breadth and flavor of popular music around the world. It is the story of the life and fifty-year career, from the age of cylinder recordings to the stereo era, of the man who pioneered the recording, marketing, and publishing of blues, jazz, country, gospel, and Latin music. The book tracks Peer's role in such breakthrough events as the recording of Mamie Smith's "Crazy Blues" (the record that sparked the blues craze), the first country recording sessions with Fiddlin' John Carson, his discovery of Jimmie Rodgers and the Carter Family at the famed Bristol sessions, the popularizing of Latin American music during World War II, and the postwar transformation of music on the airwaves that set the stage for the dominance of R&B, country, and rock 'n' roll. But this is also the story of a man from humble midwestern beginnings who went on to build the world's largest independent music publishing firm, fostering the global reach of music that had previously been specialized, localized, and marginalized. Ralph Peer redefined the ways promising songs and performers were identified, encouraged, and promoted, rethought how far regional music might travel, and changed our very notions of what pop music can be. This enhanced e-

book includes 49 of the greatest songs Ralph Peer was involved with, from groundbreaking numbers that changed the history of recorded music to revelatory obscurities, all linked to the text so that the reader can hear the music while reading about it.

In this irreverent, contemporary, and very funny remix of Chekhov's *The Seagull*, Aaron Posner stages a timeless battle between young and old, past and present, in search of the true meaning of it all. Original songs composed by James Sugg draw the famously subtextual inner thoughts of Chekhov's characters explicitly to the surface. *STUPID FUCKING BIRD* will tickle, tantalize, and incite you to consider how art, love, and revolution fuel your own pursuit of happiness.

One of the Boys

Tune In is the first volume of All These Years—a highly-anticipated, groundbreaking biographical trilogy by the world's leading Beatles historian. Mark Lewisohn uses his unprecedented archival access and hundreds of new interviews to construct the full story of the lives and work of John Lennon, Paul McCartney, George Harrison, and Ringo Starr. Ten years in the making, Tune In takes the Beatles from before their childhoods through the final hour of 1962—when, with breakthrough success just days away, they stand on the cusp of a whole new kind of fame and celebrity. They've one hit record ("Love Me Do") behind them and the next ("Please Please Me") primed for release, their first album session is booked, and America is clear on the horizon. This is the lesser-known Beatles story—the pre-Fab years of Liverpool and Hamburg—and in many respects the most absorbing and incredible period of them all. Here is the complete and true account of their family lives, childhoods, teenage years and their infatuation with American music, here is the riveting narrative of their unforgettable days and nights in the Cavern Club, their laughs, larks and adventures when they could move about freely, before fame closed in. For those who've never read a Beatles book before, this is the place to discover the young men behind the icons. For those who think they know John, Paul, George, and Ringo, it's time to press the Reset button and tune into the real story, the lasting word. From the Hardcover edition.
