A mammoth volume on the Commonwealth of Independent States (CIS), assembling major accords and protocols that form the institutional framework of the Commonwealth, key political statements by leaders of CIS member states, coverage of CIS responses to internal crises, and a detailed chronology of developments in the early years of the CIS's existence, plus color maps and statistics. Introductory notes to each group of documents supply historical background and highlight the inner dynamics of the CIS. An introduction places the dissolution of the USSR and the development of the CIS in a larger historical and geopolitical context. Includes contacts of CIS embassies and consulates in the US. Deutsche Mark Diplomacy

Soviet Politics at Home and Abroad

Whether economic sanctions work at all, and how they work if they do, are questions that have long been debated by scholars of international relations. Using a new analytic approach, which distinguishes between positive and negative sanctions and between specific and general sanctions, this book aims both to demonstrate the importance of economic linkage and to explain the variety of forms it can take. Deutsche Mark Diplomacy draws support for its theoretical

arguments from a careful study of Germany's efforts to gain political leverage over Russia via economic means from 1870 into the 1990s. Focusing on two major powers over a long period, during which regimes changed and issues varied, Randall Newnham finds strong evidence to show that positive forms of linkage such as foreign aid and trade or credit incentives are more effective than negative types such as embargoes. His book significantly expands our understanding of the role played by economic sanctions in international politics at the same time that it offers a more systematic way of explaining German foreign policy.

Post-Soviet Power

antly, the pact laid the groundwork for Soviet control of Eastern Europe, a power grab that would define the post-war order. Drawing on memoirs, diaries, and official records from newly opened Soviet archives, *The Devils' Alliance* is the authoritative work on one of the seminal episodes of World War II. In his characteristically rich and detailed prose, Moorhouse paints a vivid picture of the pact's origins and its enduring influence as a crucial turning point, in both the war and in modern history.

Soviet Foreign Policy

Drawing on a wealth of new sources, this work documents the evolving relationship between Moscow and Peking in the Twentieth Century. Using newly-available Russian and Chinese archival documents, memoirs written in the 1980s and 1990s, and interviews with high-ranking Soviet and Chinese eyewitnesses, the book provides the basis for a new interpretation of this relationship and a glimpse of previously unknown events that shaped the Sino-Soviet alliance. An appendix contains translated Chinese and Soviet documents - many of which are being published for the first time. The author reevaluates existing sources and literature on the topic, and demonstrates that the alliance was reached despite disagreements and distrust on both sides and was not an inevitable conclusion. He also shows that the relationship between the two Communist parties was based on national interest politics, and not on similar ideological convictions.
