In *Beyond the Metropolis*, Louise Young looks at the emergence of urbanism in the interwar period, a global moment when the material and ideological structures that constitute “the city” took their characteristic modern shape. In Japan, as elsewhere, cities became the staging ground for wide ranging social, cultural, economic, and political transformations. The rise of social problems, the formation of a consumer marketplace, the proliferation of streetcars and streetcar suburbs, and the cascade of investments in urban development reinvented the city as both socio-spatial form and set of ideas. Young tells this story through the optic of the

provincial city, examining four second-tier cities: Sapporo, Kanazawa, Niigata, and Okayama. As prefectural capitals, these cities constituted centers of their respective regions. All four grew at an enormous rate in the interwar decades, much as the metropolitan giants did. In spite of their commonalities, local conditions meant that policies of national development and the vagaries of the business cycle affected individual cities in diverse ways. As their differences reveal, there is no single master narrative of twentieth century modernization. By engaging urban culture beyond the metropolis, this study shows that Japanese modernity was not made in Tokyo and exported to the provinces, but rather co-constituted through the circulation and exchange of people and ideas throughout the country and beyond.

Roger Atwood knows more about the market for ancient objects than almost anyone. He knows where priceless antiquities are buried, who is digging them up, and who is fencing and buying them. In this fascinating book, Atwood takes readers on a journey through Iraq, Peru, Hong Kong, and across America, showing how the worldwide antiquities trade is destroying what's left of the ancient sites before archaeologists can reach them, and thus erasing their historical significance. And it is getting worse. The discovery of the legendary Royal Tombs of Sipan in Peru started an epidemic. Grave robbers scouring the countryside for

tombs--and finding them. Atwood recounts the incredible story of the biggest piece of gold ever found in the Americas, a 2,000-year-old, three-pound masterpiece that cost one looter his life, sent two smugglers to jail, and wrecked lives from Panama to Pennsylvania. Packed with true stories, this book not only reveals what has been found, but at what cost to both human life and history.

The Miseducation of Cameron Post meets Everything Leads to You in this queer young adult novel. Hopuonk, Massachusetts, 1999 Taylor Garland's good looks have earned her the admiration of everyone in her small town. She's homecoming queen, the life of every party, and she's on every boy's most-wanted list. People think Taylor is living the dream, and assume she'll stay in town and have kids with the homecoming king--maybe even be a dental hygienist if she's super ambitious.

But Taylor is actually desperate to leave home, and she hates the smell of dentists' offices. Also? She's completely in love with her best friend, Susan. Senior year is almost over, and everything seems perfect. Now Taylor just has to figure out how to throw it all away. Lindsay Sproul's debut is full of compelling introspection and painfully honest commentary on what it's like to be harnessed to a destiny you never wanted.

The true story of John (Joseph) Merrick—a.k.a. the Elephant Man—has captured the imagination of generations of audiences, critics, actors and filmmakers. In 1978, producer Jonathan Sanger received a screenplay from two unknown writers about a hideously disfigured man who refused to fall victim to despair and instead exemplified human dignity. Reading it (twice), Sanger was determined that Merrick’s story would be told. This book is Sanger’s unvarnished first-person account of how *The Elephant Man* (1980) was made. His adventure in filmmaking—itself a study in triumph over despair—involved special effects nightmares, scheduling conflicts, location issues and many risky decisions. Assembling a team that included Mel Brooks (executive producer), David Lynch (director) and actors John Hurt and Anthony Hopkins, Sanger persevered in making this inspiring, award-winning film.

Baseball-loving seventh grader Richard has hopes of turning himself and the new kid, Napoleon, into the best baseball players Boston has seen since the Gold Dust Twins “As long as you have baseball on your side you can overcome anything.” Seventh grader Richard Moncreif is convinced baseball will ease newcomer Napoleon Charlie Ellis’s transition to life in Boston. Napoleon is unlike anyone he’s ever met: poised, well educated, and a cricket player from the Caribbean. Napoleon is one of the few black students at Richard’s school, where racism is pervasive. But Richard believes that he and Napoleon can get through any hardship and become the next Gold Dust Twins, just like the famous pair of Red Sox rookies from 1975. After all, Napoleon is a natural athlete, and Richard knows everything anyone could possibly know about baseball. He just needs Napoleon to play along. This ebook features an illustrated biography of Chris Lynch including rare images from the author’s personal collection.
