Annualization of pay increases, debt service, education, environmental services, general provisions, highways and traffic, human resources, recreation, settlement of claims and suits, testimony of members of Congress, citizens and organizations of the District of Columbia

Working mothers constantly battle the pull to do all the things well. From managing work and home responsibilities to being impacted by a lack of self-care and time for deep friendships, the struggle is real. At the end of each day, many working moms are exhausted and stretched too thin. But this does not have to be the norm. In her latest practical and inspiring book, Jessica Turner shows the working mom how to - work and parent guilt-free - establish clear work boundaries - set achievable goals - discover more flexibility - develop home management solutions - prioritize self-care - invest in her marriage - cultivate deeper friendships - feel like a good mom, even while working Full of compassion and encouragement, Stretched Too Thin will empower women with useful insights and tools to thrive as working moms.

The Playground Murders

Introduces the basics of cooking and food, teaching young chefs to make sense of recipes, measure and substitute ingredients, and stock a pantry, illustrating that food is more than just a prepackaged meal.

The Literary Digest

Municipal Journal and Engineer

"I like to invoke the image of figure and ground. In any scene, certain elements stand out as figures, as dominant foci, against a less prominent background, which (ideally) supports the central figure. At present, test scores and rankings have become figures, so dominant that they virtually occlude everything else. In my preferred portrait of education, a well-schooled mind becomes the central figure--a mind that truly understands disciplinary ways of thinking and one that also encourages respectful and ethical behavior. All the rest--including the instruments of accountability should be in the background, providing support for that central, powerful image. Why the current ideal of school focuses so much on a certain view of knowledge, transmitted in a certain way, and documented in a certain way, is a question for historians and policy makers: That it has taken this turn is a source of regret to those of us who harbor a different view of knowledge and education." -- From the introduction by the author (p. xxviii).

Rural Tourism Development

For women entrepreneurs (and anyone sick of the status quo), this smart, unapologetic collection delivers fifty proven hacks to leapfrog over obstacles and succeed in business. "A must-read for any woman who has a great idea and the nagging thought that doors are closed to her; Molina Niño helps to blow them open."--Publishers Weekly Think the most critical factor for becoming a great entrepreneur is grit, risk-taking, or technical skills? Think again. Despite what every other business book might say, historical data show the real secret ingredients to getting ahead in business are being rich, white, and male. Until now. Leapfrog is the decades-overdue startup bible for the rest of us. It's filled with uncompromising guidance for winning at business, your way. Leapfrog is for entrepreneurs of all stripes who are fed up with status quo advice--the kind that assumes you have rich friends and family and a public relations team. Refreshingly frank and witty, author Nathalie Molina Niño is a serial tech entrepreneur, the founder and CEO of BRAVA Investments, and a proud daughter of Latinx immigrants. While teaching budding entrepreneurs at Barnard College at Columbia University and searching the globe for investment-worthy startups, she has met or advised thousands of entrepreneurs who've gone from zero to scalable business. Here she shares their best secrets in the form of fifty "leapfrogs"--clever loopholes and shortcuts to outsmart, jump over, or straight up annihilate the seemingly intractable hurdles

facing entrepreneurs who don't have family money, cultural capital, or connections.

The Unschooled Mind

This handbook describes family day care with the aim of helping interested persons determine whether or not the occupation of child care provider is appropriate for them. Part 1 focuses on factors to consider in deciding to start a family day care business and cites problems experienced by practicing caregivers. Part 2 deals with relations between parents and the caregiver and describes procedures for enrolling new families. Part 3 points out the business aspects of family day care, including fees, hours, trial periods, food, infant supplies, emergencies, illness, vacations and holidays, substitute caregivers, naps and rest, discipline, spare clothes, the caregiver's program, contracts with parents, the licensing/registration process, zoning, taxes, budgets, insurance, record keeping, and locating clients. Part 4 provides guidelines for setting up a program at home, planning and scheduling, activities, and the emotional climate in the home. Part 5 focuses on professional aspects of child caregiving, such as training, professional development, and affiliation with professional organizations. Bibliographic material provides lists of resources about family day care, child care in general, program ideas, and child development. Also listed are journals and newsletters, audiovisual materials, and book distributors. (RH)

From the front lines of the fracking debate, a “field philosopher” explores one of our most divisive technologies. When philosophy professor Adam Briggie moved to Denton, Texas, he had never heard of fracking. Only five years later he would successfully lead a citizens' initiative to ban hydraulic fracturing in Denton—the first Texas town to challenge the oil and gas industry. On his journey to learn about fracking and its effects, he leaped from the ivory tower into the fray. In beautifully narrated chapters, Briggie brings us to town hall debates and neighborhood meetings where citizens wrestle with issues few fully understand. Is fracking safe? How does it affect the local economy? Why are bakeries prohibited in neighborhoods while gas wells are permitted next to playgrounds? In his quest for answers Briggie meets people like Cathy McMullen. Her neighbors' cows asphyxiated after drinking fracking fluids, and her orchard was razed to make way for a pipeline. Cathy did not consent to drilling, but those who profited lived far out of harm's way. Briggie's first instinct was to think about fracking—deeply. Drawing

on philosophers from Socrates to Kant, but also on conversations with engineers, legislators, and industry representatives, he develops a simple theory to evaluate fracking: we should give those at risk to harm a stake in the decisions we make, and we should monitor for and correct any problems that arise. Finding this regulatory process short-circuited, with government and industry alike turning a blind eye to symptoms like earthquakes and nosebleeds, Briggie decides to take action. Though our field philosopher is initially out of his element—joining fierce activists like "Texas Sharon," once called the "worst enemy" of the oil and gas industry—his story culminates in an underdog victory for Denton, now nationally recognized as a beacon for citizens' rights at the epicenter of the fracking revolution.

A Field Philosopher's Guide to Fracking: How One Texas Town Stood Up to Big Oil and Gas

A young girl describes how her school friend made over a million dollars by creating and marketing a cheaper and better toothpaste.

The Survey

How can economic development of tourism contribute to the preservation of qualities in rural areas? How can tourism innovations be generated? How can policy-makers effectively influence economic development? This book explores sense and non-sense of interactive approaches to rural tourism development. It confronts - often optimistic - theoretical ideas with practices in four regions in the Netherlands and France.

'A class above' IAN RANKIN. Forty years ago, in the dark of the playground, two children's lives were changed for ever. Stella Darnell is a cleaner. But when she isn't tackling dust and dirt and restoring order to chaos, Stella solves murders. Her latest case concerns a man convicted of killing his mistress. His daughter thinks he's innocent, and needs Stella to prove it. As Stella sifts through piles of evidence and interview suspects, she discovers a link between the recent murder and a famous case from forty years ago: the shocking death of six-year-old Sarah Ferris, killed in the shadows of an empty playground. Stella knows that dredging up the past can be dangerous. But as she pieces together the tragedy of what happened to Sarah, she is drawn into a story of jealousy, betrayal and the end of innocence. A story that has not yet reached its end 'One of the most original characters in British crime fiction' SUNDAY TIMES. 'Thomson creates a rich and sinister world that is utterly unique Gloriously well-written' WILLIAM SHAW.
