Your Students, My Students, Our Students explores the hard truths of current special education practice and outlines five essential disruptions to the status quo. Authors Lee Ann Jung, Nancy Frey, Douglas Fisher, and Julie Kroener show you how to - Establish a school culture that champions equity and inclusion. - Rethink the long-standing structure of least restrictive environment and the resulting service delivery. - Leverage the strengths of all educators to provide appropriate support and challenge. - Collaborate on the delivery of instruction and intervention. - Honor the aspirations of each student and plan accordingly. To realize authentic and equitable inclusion, we must relentlessly and collectively pursue change. A whole new twist on General, Organic and Biological Chemistry! Introducing a unique approach, with a whole new twist designed for the specific needs of the General, Organic, and Biochemistry course! Kenneth Raymond's General, Organic, and Biological Chemistry offers a concise, manageable, highly effective alternative with an integrated Table of Contents. Now, students can get to the biochemistry topics earlier, better appreciate how the course relates to careers in allied health,

and see connections among these three areas of chemistry. Here's how Raymond's approach works: 1. Integration.
