WALNECK'S CLASSIC CYCLE TRADER, OCTOBER 2009

A blended learning approach to automotive engineering at levels one to three. Produced alongside the ATT online learning resources, this textbook covers all the theory and technology sections that students need to learn in order to pass levels 1, 2 and 3 automotive courses. It is recommended by the Institute of the Motor Industry and is also ideal for exams run by other awarding bodies. Unlike the current textbooks on the market though, this title takes a blended learning approach, using interactive features that make learning more enjoyable as well as more effective. When linked with the ATT online resources it provides a comprehensive package that includes activities, video footage, assessments and further reading. Information and activities are set out in sequence so as to meet teacher and learner needs as well as qualification requirements. Tom Denton is the leading UK automotive author with a teaching career spanning lecturer to head of automotive engineering in a large college. His nine automotive textbooks published since 1995 are bestsellers and led to his authoring of the Automotive Technician Training multimedia system that is in common use in the UK, USA and several other countries.

The Autocar

For Harley-Davidson aficionados, the very name Sportster conjures an image of a fire-breathing mechanical beast scorching the world's tarmac image the Sportster itself often does not live up to. Straight from the factory, in its standard form, the Sportster routinely proves an entry-level motorcycle providing a relatively tame ride. This book aims to change all that and to show every Sportster rider how to free the beast in his or her bike. With expert, detailed advice on the proper mechanical massaging and plenty of helpful diagrams and photos this updated, third edition of Buzz Buzzelli's best-selling handbook shows how the Sportster can be transformed into the superbike of old. Including a history of the Sportster from its birth in 1957 to the recent introduction of a new engine (only the third in its long life), this book has everything it takes to open up the gates of hell and give the Sportster its head.

Suzuki RM125 1996-2000

Life has gotten a bit boring for Zuria Johnston, and with the exception of her Friday nights out with her best, flamboyant friend, Chase, and her job as a guidance counselor, she seems to have hit a rut. After a rough break-up with her longtime boyfriend, Manuel, her prospects of finding a man also seem pretty bleak. That is, until she connects with her poetic crush, Amir, and he opens her eyes to a world of romance and passion that she didn't know existed. She discovers what it feels like to be loved as a real woman should, and to overcome the difficulties of being a young, strong, black woman who is afraid to have her heart broken for a second

time. The thrill of new romance seems to fill the emptiness in her life, but her old life isn't as easy to escape as she first thought. Mistakes that she thought she had left behind threaten to undo everything that she has begun to build in this new chapter of her life, but she isn't the only one battling the demons of her past. The poetic and passionate Amir harbors some dark secrets of his own, and when the truth begins to come out, the connection between her two lovers, old and new, may end her short reign of happiness before it ever fully begun. With love from one man and sworn vengeance from another, Zuria is trapped in the middle, trying desperately to make her way through the tangled troubles of family, love, and happiness. The problem is, she might lose more than the man of her dreams. As this complex and spellbinding story reaches its peak, Zuria will have to risk mind, body, and soul for herself and the people she loves, but will that final risk mean achieving the life she'd always dreamed of? Or will she end up making the ultimate sacrifice?
