The Manual for the Early Years SENCO

This handbook details the nursing care of patients undergoing oral and maxillofacial surgery. It deals with diseases, disorders and injuries of the mouth, jaw and face and provides information on the full spectrum of patient care from pre-admission to discharge planning. It is jointly written by nurses and consultants in the area of maxillofacial surgery, and combines elements of nursing care with medical and surgical information. It provides an attractive alternative to the heavier medical tomes that nurses have come to rely upon.

Clinical Manual of Small Animal Endosurgery

A practical and comprehensive guide to rigid endoscopy and endosurgery in small animal practice. Fully illustrated throughout, it covers the clinical treatment of small animals from pre-operative through to post-operative care. With reference

to specific procedures, this manual includes guidance on the selection of equipment, surgical techniques, anaesthesia and possible complications. A specialist chapter advising on the treatment of birds, reptiles and small mammals is also included. Clinical Manual of Small Animal Endosurgery will enable veterinarians to develop and improve their endoscopic techniques in clinical practice, as well as providing guidance on referral options for more complex cases. KEY FEATURES • Provides comprehensive information on how to perform rigid endoscopic investigations and procedures. • The focus is on dogs and cats with a specialist chapter covering the treatment of exotic small animals • Contains many full colour clinical photographs • Written and edited by experts in the field

Radiation Protection of the Patient in Nuclear Medicine

Starting with a look at the role and responsibilities of a special educational needs co-ordinator (SENCO), this text covers all areas of the job from supporting children and colleagues to working with parents and outside agencies.
