For millions of people worldwide, nurses are the difference between life and death, self-sufficiency and dependency, hope and despair. But a lack of understanding of what nurses really do -- one perpetuated by popular media's portrayal of nurses as simplistic archetypes -- has devalued the profession and contributed to a global shortage that constitutes a public health crisis. Today, the thin ranks of the nursing workforce contribute to countless preventable deaths. This fully updated and expanded edition of *Saving Lives* highlights the essential roles nurses play in contemporary health care and how this role is marginalized by contemporary culture. Through engaging prose and examples drawn from television, advertising, and news coverage, the authors detail the media's role in reinforcing stereotypes that fuel the nursing shortage and devalue a highly educated sector of the contemporary workforce. Perhaps most important, the authors provide a wealth of ideas to help reinvigorate the nursing field and correct this imbalance. As American health care undergoes its greatest overhaul in decades, the practical role of nurses -- that as autonomous, highly skilled practitioners -- has never been more important. Accordingly, *Saving Lives* addresses both the sources of, and prescription for, misperceptions surrounding contemporary nursing.

Latinos have been part of the Hollywood film industry for more than 100 years, yet beyond the remarkable success of a few, their visibility and clout have generally not reflected their significance in American society. Worse, the Latino image has suffered from widespread stereotyping in film, and performers face unjustified constraints in the kinds of roles available to them. Decade by decade from 1960 onward, this book analyzes important films made by or about Latinos, details the careers of Latino performers and filmmakers of the time, and analyzes how film portrayals of Latino characters and subjects connect with political and social trends of each decade. It discusses the role of gender, social class, and ethnicity in film portrayals and provides an overview of the diverse and dynamic Latino community in the United States, while celebrating a substantial and enduring contribution to Hollywood film history.

An instant New York Times bestseller, Dan Lyons' "hysterical" (Recode) memoir, hailed by the Los Angeles Times as "the best book about Silicon Valley," takes readers inside the maddening world of fad-chasing venture capitalists, sales bros, social climbers, and sociopaths at today's tech startups. For twenty-five years Dan Lyons was a magazine writer at the top of his profession--until one Friday morning when he received a phone call: Poof. His job no longer existed. "I think they just want to hire younger people," his boss at Newsweek told him. Fifty years old and with a wife and two young kids, Dan was, in a word, screwed. Then an idea hit. Dan had long reported on Silicon Valley and the tech explosion. Why not join it? HubSpot, a Boston start-up, was flush with \$100 million in venture capital. They offered Dan a pile of stock options for the vague role of "marketing fellow." What could go wrong? HubSpotters were true believers: They were making the world a better place by selling email spam. The office vibe was frat house meets cult compound: The party began at four thirty on Friday and lasted well into the night; "shower pods" became hook-up dens; a push-up club met at noon in the lobby, while nearby, in the "content factory," Nerf gun fights raged. Groups went on "walking meetings," and Dan's absentee boss sent cryptic emails about employees who had "graduated" (read: been fired). In the middle of all this was Dan, exactly twice the age of the average HubSpot employee, and literally old enough to be the father of most of his co-workers, sitting at his desk on his bouncy-ball "chair."
