Annual Report of the Education Department

Mr. Custodian

Drawing on ten years of undercover work and research in four major school districts, Segal reveals how systemic waste and fraud siphon millions of dollars

from urban classrooms. Calling for renewed powers for principals and a streamlining of oversight, she offers a bold, far-reaching plan to reclaim our schools.

The Principal as School Manager offers advice on expectations and survival techniques to ensure the principal's longevity in the district. Like the previous editions, this book is an essential guide to practice and procedure. Its chapter on school legal issues will be especially useful for principals dealing with improper Internet usage, drug testing, and off-campus searches. Other chapters will explain the role of the assistant principal, the importance of maintaining safe schools in a climate of violence, and the relationship between the principal and the superintendent. This third edition contains new chapters and sections on managing the school curriculum, special education, classroom walk-throughs, creating a healthy school environment, and cyberbullying. Appropriate also for graduate courses on the principalship, educational administration, educational leadership, and personnel administration, The Principal as School Leader is the go-to guide for both novice and veteran school principals.

Financial Accounting for School Administrators

Records & Briefs New York State Appellate Division

An update to Financial and Managerial Accounting for School Administrators: Superintendents, School Business Administrators and Principals, this book and CD includes current best practices, GASB pronouncements, and web-based applications. It also provides school administrators with important accounting background, technique, and applications in the school environment and demonstrates the overall binding effect accounting has on all of the tasks and functions performed by school administrators. Knowledge about accounting and accounting skills pervades all aspects of the day-to-day operation of a school and school district. The proper day-to-day operation of the schools and quality planning and decision-making cannot realistically take place unless administrators and board members have an understanding of school fund accounting. The present and the future will see the need for both financial and managerial accounting. One type will not overshadow the other. Both will continue to evolve and develop to satisfy the needs of society and the education community. Financial and managerial accounting together can be thought of as the process that gathers, produces, organizes, and presents information that can be consumed by a wide variety of users for the purpose of keeping an organization operating, growing, improving, and changing. This book and CD will be useful to superintendents, school business managers, and principals.
