Bunshō Hyōgen

This volume draws together the viewpoints and research findings of leading scholars and informed local practitioner-researchers throughout Asia-Pacific about the issues and challenges of English as a medium of instruction (EMI) at higher education institutions in that region. Specifically, it addresses four key themes: Macro-level EMI policy and practice; institutional implications for pedagogy; stakeholder perceptions of EMI; and challenges of interpersonal interaction in EMI contexts. The book is among the first to critically examine the emerging global phenomenon of English as a medium of instruction, and the first title to exclusively explore Asia-Pacific tertiary contexts. It will be of particular interest to policy-makers in international education and tertiary educators seeking blueprints for practice, as well as scholars and postgraduate students of English as a lingua franca, English for academic purposes, academic language and learning, and language education in Asia-Pacific.

A Certain Scientific Railgun: Astral Buddy Vol. 1

Humanity is moving ever towards its final destination without knowing why, when, where: teloi, multiple paths, leading towards God's eschaton. These essays

examine the movement towards this day of reckoning, and how such eschatological events are projected back into time. Towards the Day after Tomorrow, or the one after that, or months, decades—centuries—away, often we behave as though the end is upon us. These essays start with the beginning of the end: the incarnation. We examine the origins of Karl Barth's realized eschatology in Expressionism. We consider death and judgment, as usurped by humanity, an eschaton without God's forgiving judgment: multiple Holocausts. War ushers in the eschaton, but how do Christians handle conflict in the light of a redefined just war theory? We analyze the eschatological insights into humanity's end in *The Simpsons*—post mortem. Consider the issue of atheistic human authorities usurping God's judgment. Finally crisis and judgment are glimpsed in the mindset of people who suffer seizures—postlapsarian exile, the sufferance of salvation: how God blesses us despite the chaos of our human-generated teloi, in preparation for the end. As the end approaches, events become darker, chaotic, confusion reigns: "Judas immediately went out. And it was night."

Philosophy as Metanoetics

"In truth there was only one Christian, and he died on the cross," declares Friedrich Nietzsche in this famous attack on Christianity and organized religion. A deep exploration and repudiation of Christian symbolism and morality, *The Antichrist* was the last of Nietzsche's works save for his autobiography, *Ecco Homo*. As such, it may be regarded as a final statement of some of his most important ideas. This polemic is also one of the philosopher's most conventionally formatted books, consisting of a connected argument with few digressions and a clearly defined beginning, middle, and end. Indeed, it ranks among philosophy's most accessible and easily understood works, consisting of 62 brief chapters. Each chapter features an aphorism that advances the author's arguments against Christian tenets. Fast-paced, concise, and brimming with conviction, Nietzsche's landmark work is essential to a grasp of his complete oeuvre.
